Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 11-17 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Ino et al (JP 2000-180127) or alternatively under 35 U.S.C. 102(e) as being anticipated by Ino et al (US Patent Publication 20020066859).

Ito et al disclose a semiconductor processing apparatus comprising a chamber to process a sample wafer (Fig 31), first data storing device (542), a second data storing device (543), each receiving and storing data from the chamber during processing (Paragraph 207), selecting device which selects the data received by the storage devices (550) and data analyzing device (550) capable of diagnostics. Further as both memory locations (storage devices) can independently store or retrieve data they could be used simultaneously to store or read (Paragraph 208 and 213) and attached or detached (*using or releasing memory*).

### *Response to Arguments*

3. Applicant's arguments with respect to claims 11-17 have been considered but are moot in view of the new ground(s) of rejection.
